

MimioStudio 8 Software

DESCRIPTION

MimioStudio™ 8 software for Windows lets you get the most out of your MimioClassroom™ products. It delivers the automatic integration that lets your Mimio tools work flawlessly—on their own or together. MimioStudio software offers full compatibility with virtually every popular software application, including Microsoft Office and Adobe Acrobat.

Create extraordinary lessons

It's easy to create with MimioStudio software. Its intuitive features and simple interface let you pull together images, multimedia, and Internet links, building interactive lessons effortlessly.

Teach more effectively

MimioStudio software is the brains behind the MimioClassroom suite of products that make lessons a captivating, hands-on experience. MimioStudio 8 software includes an expanded toolset with more flexibility for teachers who want to develop engaging lessons. New tools include a brush pen, free-form screen clipping, a personal color palette, and shape recognition.

Find engaging content

Word games, quizzes, and hundreds of images are all at your fingertips to enhance your lessons. You can find them all within MimioStudio Gallery.
